

AMENDMENTS TO THE SPECIFICATION

In the Specification:

Please **AMEND** the specification as shown in the following marked up paragraphs, which shows changes made relative to the immediate prior version.

Please **AMEND** the paragraph beginning on page 5, line 3 as follows:

-- In addition, in the various embodiments of the present invention, the display may further include an optical unit 10, as shown in Fig. 1, which can adjust the light emitted from the emitter layer 4, and/or a screen ~~[[13]] (not shown)~~ onto which the light emitted from the emitter layer 4 is projected in order to form an image. --

Please **AMEND** the paragraph beginning on page 11, line 18 as follows:

-- In various embodiments of the present invention, in the step of projecting, excitation light may be irradiated by a lamp which emits ~~with a high quota of~~ blue light and ultraviolet rays, such as, for example, a mercury lamp or a xenon lamp. --
